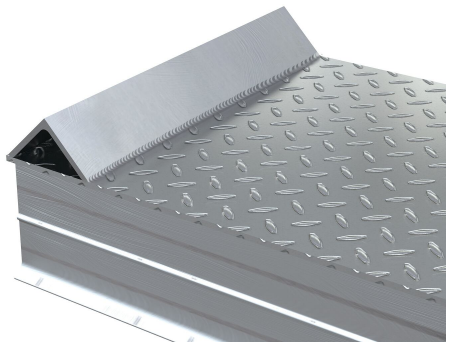
Aluminum Tread Plate Wheel Riser with Roll Off Guard 48 In. x 24 In. x 8-1/16 In. 30000 Lb. Capacity Silver

MODEL ATWR-ROG-24-6-48

Loading Dock Equipment / Aluminum Wheel Risers



PRODUCT OVERVIEW

A standard wheel riser is a great asset to have available when working in the shipping and receiving industries. But, this wheel riser is more than standard. With an aluminum construction, this unit includes a roll off edge guard that acts as a stop point. This allows the user to safely mount the wheel riser without the fear of going too far. The raised tread surface gives added traction throughout the ascending and descending action.

KEY FEATURES

- Raised back edge prevents roll offs
- Simple way to elevate during loading/unloading
- Raised diamond tread plate surface provides a non-slip grip
- Ramp design can be stacked for compact storage when not in use
