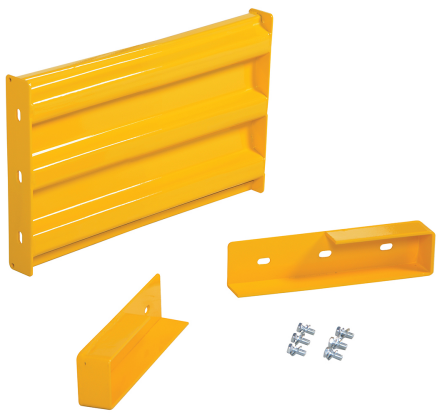
Steel 3 Ribbed Drop In Style Guard Rail 24 In. Length Yellow

MODEL GR-F3R-DI-2-YL

Protective Barriers / Structural Guard Rails (drop-in and bolt-on style)



PRODUCT OVERVIEW

Protecting equipment, inventory, and most importantly individuals from damage or injury is always a concern. But, with a structurally strong guard rail those worries can be eased. Rails have three ribs for impact resistance both indoors and out. With the drop-in style rail design, accessibility is simple and rails can be positioned quickly. To put in place simply slide the rail sections into the post saddles. Powder coated finish for built in added toughness. Additional posts are available and sold separately. If adding a rail to an existing rail and post section, only a single post is needed.

KEY FEATURES

- 3 Ribbed design for added strength
- Yellow baked-in powder-coated finish for added toughness
- Drop-In rail with brackets and hardware
- Heavy-duty design protects corners of buildings and machinery from fork truck and vehicle damage
