

Steel Tread Plate Platform Truck 27 In. x 54 In. 2000 Lb. Capacity Black

MODEL ECSPT-2754-TP

/ Steel Platform Truck (Smooth or Treadplate)

PRODUCT OVERVIEW

A steel tread plate on a platform truck is an upgrade to an old classic. A tread plate design provides the user with a better sense of security. With this added texture, the amount of jostling and movement by the products on the platform is limited. The steel handle allows the user to maintain an ergonomic posture while transferring goods. Mold on rubber casters roll smoothly. Powder coated finish provides added toughness.

KEY FEATURES

- Steel tread plate platform
- Large handle for simple pushing
- Unique cart design
- Mold on rubber casters for smooth maneuverability
